TECHNICAL EXPERIENCE

NASHVILLE SOFTWARE SCHOOL

NSS is a six-month intensive, full-time software development bootcamp focusing on HTML, CSS, JavaScript, React, and server-side fundamentals with C# and the .NET 5 framework.

- Single-page application development with React and with a focus on modern ES6+ JavaScript features and modular code
- Project management with issue tickets and GitHub Projects Database planning by building entity relationship diagrams (ERD) to define relationships with an emphasis on maintaining a flat data structure
- Utilize vanilla JavaScript (ES6), and React.js to create single page dynamic web applications using full CRUD functionality
- Styled applications using CSS, Bootstrap, and React Bootstrap
- Completed 5 group project sprints with fully remote, comfortable with Slack, Zoom, GitHub Projects, and wireframes for group communication and collaboration

PROJECTS

BIBLIOTECH

https://github.com/dudley-codes/bibliotech

- Planned and executed a combat skills training program for over 100 Soldiers, resulting in 95% of all personnel meeting or exceeding the standard over a three-day testing period

ALL ABOUT ME

I am a highly motivated, detail oriented bartender turned full stack software developer. As an Army veteran with 4+ years living and working in an international environment, I understand the importance of communication and teamwork; I hope to leverage that experience in my new career. I am seeking a front-end or full-stack position where I can continue to learn and grow as a developer.
